### Birding through observation!

Now that you have learnt about different types of beaks and feet in birds, observe the birds in your neighbourhood, draw their feet and beak, and try to identify their food and habitat with your favourite Master Naturalist- Kaustubh Srikanth!

# THE ABC OF BIRDING 02

SEE Spot a bird. Number it	OBSERVE & DRAW Draw the feet and the bill of the bird you saw		GUESS Guess what it eats and the name of the bird too!
1			Grains, seeds, fruits etc
			Blue Rock Pigeon
