## ALL ABOUT PLASTICS

### MODULE 1 | Decoding Plastics | Assignment

#### Be a Plastic Detective

Have you seen plastic products marked with the recycling symbol—with numbers and arrows—that helps identify the type of plastic? Become a Plastic Detective and study as many different types of plastics around you. Group them based on the symbol and fill in the table below.

Recycling code on the product	Type of product (Write name / draw the product - bottle, mug, bag, packaging material, window frame, etc.)	Observations (Transparent, Opaque, Translucent, Color, Rigid, etc.)	Uses
 PET			
 HDPE			

 PVC			
 LDPE			
 PP			
 PS
