## 11 February | International Day of Women and Girls in Science

Women play an essential role in the management of natural resources and have profound traditional knowledge of the natural world around them. It is impossible to tell the story of conservation without recognising the role of women in it.

**Let's take this day to appreciate the incredible contribution of women in conservation!**

**Video** Take inspiration from this story of a passionate conservationist.  
<https://www.youtube.com/watch?v=mqWU9CdkNFo>

**Quiz** Take this quiz to find out which female conservationist you are most similar to!  
<https://www.fws.gov/story/2024-03/quiz-which-famous-female-conservationist-are-you>

**Article** Check out this article to learn more about our planet's wonder women!
