1 January | Celebrating New Year

New Year is a chance for new beginnings, new habits, and new resolutions. What eco-resolution will you make for this year?

Here are some ideas for eco-resolutions for you to choose from. Don't be afraid to add your touch to it.

Game “*I will recycle more*”. Here is a game to help you practice trash sorting.

<https://kids.nationalgeographic.com/games/action-adventure/article/recycle-roundup-new>

Course “*I will educate myself on species, big and small.*”

Here is a fun digital course you can take.

<https://academy.wfindia.org/courses/butterfly-buff/>

Video “*I will make sure I don't waste water.*” Find out why water is a precious resource.

<https://academy.wfindia.org/2022/04/02/water-takes-change-the-story/>

Map “*I will visit at least one protected area to appreciate the magic of wildlife.*” Know more about the biodiversity of your state.

24 January | International Day of Education

This International Day of Education, let's step beyond the classroom! Make a green decision to educate yourself and others about our beautiful planet and its incredible inhabitants.

You can start off with these interesting resources!

Course We often wonder what we can do about climate change. Start by enrolling in a course on being a climate actioneer.

<https://academy.wfindia.org/courses/climate-actioneers/>

Video Environment education from early years can make a huge difference in creating a generation of nature leaders! Watch this video and get inspired.

https://www.youtube.com/watch?v=F4_F8Nd3-Wo

Kit The best way to learn is to get out there and explore. Refer to this kit and explore the biodiversity around you.

<https://academy.wfindia.org/biodiversity-explorer-kit/>

26 January | Republic Day

Republic Day is celebrated to commemorate the adoption of the Indian Constitution, the mother of all laws. Did you know, as Indians, it gives us a fundamental right to a clean and healthy environment?

Learn more about what it means to have a healthy environment with these resources.

Video Why do we need a clean and healthy environment to be able to live life to the fullest? Find out with this video.

<https://www.youtube.com/watch?v=ytDeHt6u374>

Report The Living Planet Report is like a health check-up report for our planet. Check it out to see how we are doing as of 2024.
